### Post-Golden Hour Debrief

*Please debrief as a group if possible (including all providers, nurses, respiratory therapists, and staff present during delivery and admission) after Golden Hour is complete and immediate infant needs have been met.*

**Purpose:** Checklists and debriefings are tools that have been shown to improve clinical outcomes and decrease problems related to communication. You do not need to provide written responses to debrief questions.

#### Names of debrief participants:

---

---

---

#### Overall...

- What went well?
- What could have improved the Golden Hour for this baby?
- What can be learned for future admissions?

#### Any comments/lessons/questions you have for the VON Golden Hour group?
