

NICU Telemedicine Workflow Reference Sheet

Last Updated -1.17.24

1. Telemedicine consult page received

- a. Call back Access Center
 - Verify you have received telemedicine consult
 - “OFFICIALLY” request Medflight if enough information is known
- b. Locate telemedicine station
 - NICU team room north side
 - NICU telemedicine room south side
 - Neonatology attending call room
 - Neonatology attending office

(use headsets for sound optimization)

2. Begin Telemedicine Consult

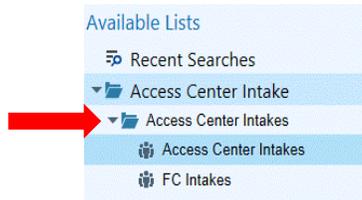

- a. Select this icon and log-in, username is same as EPIC

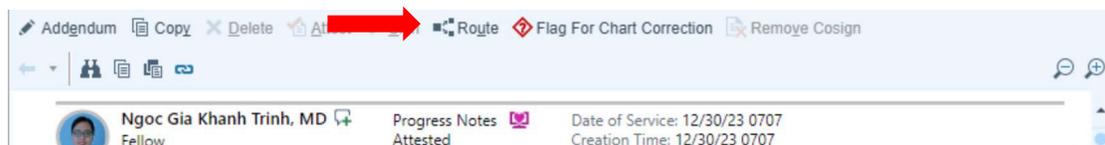

- b. Conduct telemedicine consult
- c. Confirm transport arrangements with Access Center, if not “OFFICIALLY” done

3. Documentation Required for all Telemedicine Consults

- a. Locate Access Center intake list to find patient

- b. Pend note before Access Center encounter is closed
 - If encounter is closed prior to consult note initiation, ok to document in AFCH admission encounter (for AFCH admissions) or call Access Center and ask to re-open intake encounter (for non-AFCH admissions)
- c. Use dotphrase .NICUtelehealthconsult
- d. Consult note to be “routed” to referring site within 24hrs
